

# BROOKERS RESOURCE MANAGEMENT PRECEDENTS

## FEATURES AND BENEFITS

***Brookers Resource Management Precedents* brings together the tools and documents needed by anyone who is an active participant in New Zealand's resource management process.**

The regime established by the Resource Management Act 1991 is complex. *Brookers Resource Management Precedents* is designed to provide not only the necessary forms and precedents, but guidance through the required actions and processes to achieve a desired outcome.

The information is authored and maintained by experienced resource management practitioners. Precedents are altered and reviewed where there are changes to the law or to accepted practices. Extensive linking within the product means easy navigation from commentary or analysis of required activities to the actual forms and precedents required.

### EASILY CUSTOMISABLE

Each title in the *Brookers Precedents* series consists of a collection of documents which can be used with MS Word 97 or higher. The software enables you to insert commonly-used information only once (eg, names, dates and addresses) and each form will be automatically completed.

- Brookers software guides you through each section which needs to be completed.
- Use the software to reformat documents to meet your particular needs. Add your logo – and automatically renumber paragraphs if necessary.
