Resource Management Cases and Materials

This database is part of the Brookers Resource Management Law Library: Resource Management; Cases and Materials; and Case Summaries. Material within this library is hyperlinked for ease of navigation between legislation, case law and commentary.

Media

This database is available on CD and online.

Key Contents of Database

Brookers Resource Management Cases and Materials contains the full text resource management cases of the Supreme Court, Privy Council, Court of Appeal, High Court, District Court, Environment Court, Planning Tribunal, and some foreign Courts.

Since July 1997, all Environment Court cases have been included. Prior to July 1997, only Environment Court cases of note were included. Reports of the Environment Court are also included.

All Supreme Court, Court of Appeal, High Court, and District Court decisions relating to resource management are now included as they are received by the publishers. Prior to July 1997, only notable cases were included.

This database also includes relevant media releases and speeches, information on the progress of Bills, policy documents and other reports.

Currency of Content

The database is updated a minimum of 10 times per year. Update size and frequency may vary depending on the volume of change.

Please refer to the “What’s New” in each database to obtain latest information regarding what’s included in your current update, and what the editorial team is working on for future updates.

Selection Criteria for Inclusion in Database

All Supreme Court, Court of Appeal, High Court, District Court and Environment Court decisions relating to resource management are now included as they are received by the publishers.

Materials are included subject to editorial judgement on the basis of their added value and links to this database.

Resource Management

This database is part of the Brookers Resource Management Law Library: Resource Management; Cases and Materials; and Case Summaries. Material within this library is hyperlinked for ease of navigation between legislation, case law and commentary.

Derivation

This database originated from the three-volume updating looseleaf service dating from 1991 known as Brookers Resource Management. The database contains revised and up-to-date commentary and legislation primarily relating to the Resource Management Act 1991, Crown Minerals Act 1991, and Hazardous Substances and New Organisms Act 1996.

Media

This database is available on a CD and online. Key content is available as a three-volume updating looseleaf service known as Brookers Resource Management.

Key Contents of Database

This database provides legislation and commentary in relation to key legislation in the resource management field including the Resource Management Act 1991; Crown Minerals Act 1991; and Hazardous Substances and New Organisms Act 1996. The database also includes a related legislation index section, which provides links to related acts and associated regulations. Indexes of cases by section, plus legislation indexes are provided..

Currency of Content

The database is updated a minimum of 10 times per year. Update size and frequency may vary depending on the volume of change.

Please refer to the “What’s New” in each database to obtain latest information regarding what’s included in your current update, and what the editorial team is working on for future updates.

Selection Criteria for Inclusion in Database

All legislation is amended in accordance with amending legislation and is commented on as the authors see fit. Authors include in commentary those cases they determine are worthy of discussion.

Materials are included subject to editorial judgment on the basis of their added value and links to this database.

Paragraph Prefixes

Commentary paragraphs are preceded by a one or two-letter prefix, usually relating to the relevant statute. For example, A75.04 is the first commentary paragraph for s 75 of the Resource Management Act 1991.

Annotated commentary follows the style below:

.01 denotes the History note, which sits directly beneath the section or regulation.

.03 denotes the Cross references paragraph.

.04 denotes commentary paragraph(s).

Resource Management Practice and Procedure

This database is currently one of the infobases in Brookers Resource Management Library. The other databases included in the library are Brookers Resource Management; Cases and Materials; and Case Summaries.

An access point to Alternative Dispute Resolution Practice and Procedure is also provided on the CD library manager screen. However, the ADR database is not part of this library — the link will be active only if the customer subscribes to the ADR product.

Database Abbreviation

Not applicable.
